Artificial Intelligence & Data Science Enthusiast | Machine Learning  
& Deep Learning | Data Analytics | AI-Driven Innovations | Python &  
R | Power BI | AI Intern at Augurai |  
Chennai, Tamil Nadu, India

## Summary

Data Scientist, Programmer

## Experience

### SkillForge

Machine Learning Intern  
June 2025 - July 2025 (2 months)  
Chennai, Tamil Nadu, India

Excited to share that I've successfully completed my online internship in  
Machine Learning with Python at SkillForge E-Learning Solutions Pvt Ltd from  
01-06-2025 to 15-07-2025!

This virtual experience helped me strengthen my foundation in machine  
learning concepts, data preprocessing, model training, and evaluation using  
Python. It was a great learning journey that enhanced both my technical and  
problem-solving skills — all from the comfort of home!

Thank you to the team at SkillForge for this opportunity and guidance  
throughout the internship.

### augurai

AI Intern  
June 2025 - June 2025 (1 month)  
Tiruchirappalli, Tamil Nadu, India

As an AI Intern at AUGURAI, I had the opportunity to work on real-  
time projects involving Artificial Intelligence and Computer Vision. My  
responsibilities included:

- >Assisting in the development and testing of AI models for image analysis tasks.
- >Exploring and applying deep learning techniques for object recognition and feature extraction.
- >Gaining hands-on experience with tools and frameworks such as Python, OpenCV, and PyTorch.

This internship allowed me to deepen my understanding of practical AI applications and strengthened my problem-solving and research skills.

### SkillFied Mentor

#### Machine Learning Intern

May 2025 - May 2025 (1 month)

Tamil Nadu, India

Successfully completed a one-month internship in Machine Learning, where I applied theoretical concepts to practical projects, focusing on real-world healthcare datasets.

#### Key Projects:

- => Breast Cancer Prediction: Built a machine learning model to classify and predict the likelihood of breast cancer using patient data.
- => Glucose Level Prediction: Developed a predictive model to estimate glucose levels based on medical and lifestyle factors.

#### Key Highlights:

- > Applied supervised learning techniques for healthcare analytics
- > Performed data preprocessing, feature selection, and model evaluation
- > Strengthened my skills in Python, scikit-learn, Pandas, and visualization libraries
- > Gained valuable experience in applying machine learning to real-world datasets

### Plasmid

#### Artificial Intelligence Intern

December 2024 - January 2025 (2 months)

India

Internship – Artificial Intelligence

Plasmid | Dec 2024 – Feb 2025

Successfully completed an internship in the Artificial Intelligence domain at Plasmid. Gained hands-on experience in AI-driven projects, enhancing my skills in machine learning, data processing, and problem-solving. Worked on real-world applications, demonstrating sincerity, diligence, and a strong learning attitude throughout the program.

#### Key Learnings:

- ✓ AI & Machine Learning fundamentals
- ✓ Data preprocessing and model building
- ✓ Problem-solving and analytical thinking

#ProfessionalGrowth

#### Internship Studio

Data Analyst Intern

July 2024 - July 2024 (1 month)

India

---

## Education

#### BSA Crescent Institute of Science and Technology

Bachelor of Technology - BTech, Artificial Intelligence and Data science

· (August 2023 - June 2027)

#### Velammal Vidhyashram Mambakkam (CBSE)

All India Senior School Certificate Examination (AISSCE), Mathematics and

Computer Science · (April 2022 - May 2023)

#### Velammal Vidhyashram Mambakkam (CBSE)

All India Secondary School Examination (AISSE), Common · (June 2021 - May 2022)
